

Bruno Galeazzi

Curriculum Vitae

1963 Born in Milan

1989 Graduated in Medicine and Surgery from the University of Padua, discussing a thesis about "Indicators of systemic activation of coagulation in cyrrhosis"

1994 Specialized in Internal medicine, University of Padua, discussing a thesis about "Hepatitis C infection in intravenous drug users: epidemiological and clinical aspects"

1996 Six months intensive full time Fast Track Course at the Royal London Homeopathic Hospital, theory and clinical practice.

1996 passed the exam and accepted as Member of the Faculty of Homeopathy.

1997 for some months I attended the clinical activities at the RLHH with several homeopaths.

From 1992 until 1998 I was employed as full time doctor in the Drug Abuse Unit at the Bassano del Grappa NHS Hospital, taking care of the vast psychological and physical pathologies affecting our patients.

From mid 1996 until mid 1997 I took a year off in order to study at the RLHH.

From 1998 until present time I have been working in my full time private practice always using the homeopathic classical method and integrating it with concepts and techniques mediated from Traditional Chinese Medicine, acupuncture, phytotherapy, when adequate.

I have read extensively classical and modern books about several topics of homeopathic medicine. I have attended several seminars with modern masters like Roger Morrison, Nancy Herrick, Jonathan Shore, Jeremy Sherr, Rajan Sankaran, Farokh Master and others.

I have translated into Italian the books written by Roger Morrison, "Desktop Guide", "Desktop Companion" and "Carbon"

I have conducted a homeopathic proving with *Rosa assisensis*, whose data have been included in the larger proving published by Nancy Herrick.

I have taught the classical homeopathic method for several years to medical doctors and pharmacists and clinically supervised young homeopathic doctors.

In 2019 I have written a paper, co-authored with a quantum physics expert, "Explaining Homeopathy with Quantum Electrodynamics" published in the journal Homeopathy.

Since 2010 member of the Commission for Complementary Medicine in our provincial GMC.

I write comments and post scientific articles concerning Traditional & Complementary Medicine in my blog www.galeazzi.info and post articles about the frontiers of quantum medicine and quantum biology in the blog www.medicinaquantistica.info
